SEED ROUND · 2026

Dispensa

The AI back office for independent pharmacies.

SEED · $4M FICTIONAL EXAMPLE DECK

THE PROBLEM

Independent pharmacists spend 19 hours a week on insurance paperwork instead of patients.

Prior auths, claim rejections and DIR fee reconciliation are done by hand, across six portals.

WHY IT MATTERS

The paperwork is quietly closing pharmacies.

THE PRODUCT

Dispensa files, fixes and chases every claim.

- Reads every rejected claim and drafts the fix
- Submits prior auths across all six payer portals
- Flags DIR clawbacks before they hit the bank

HOW IT WORKS

Live in a day. No new software to learn.

01

Connect

Read-only link to the pharmacy system and payer portals

02

Triage

Agents sort every claim, auth and remittance overnight

03

Approve

Pharmacist reviews drafted fixes in one inbox, one click each

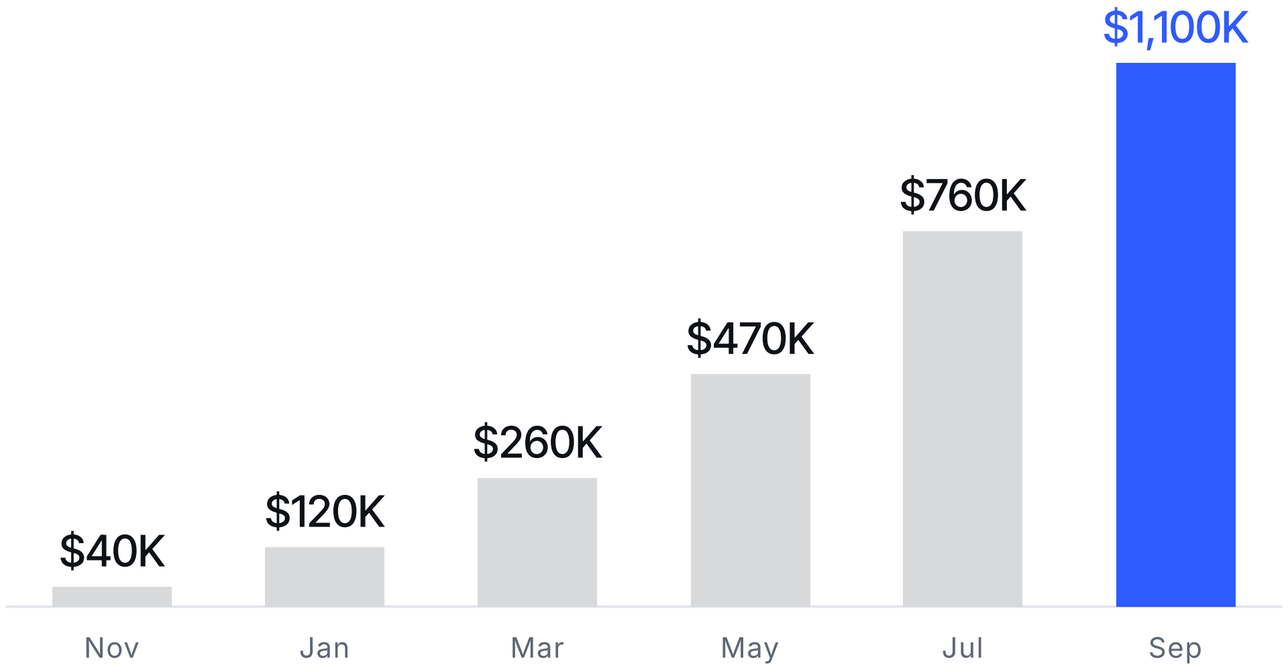

04

Recover

Dispensa tracks the money until it lands

TRACTION

$1.1M ARR in 11 months, with zero paid marketing.

UNIT ECONOMICS

Every store pays for itself in the first month.

AVERAGE MONTHLY CONTRACT VALUE	$1,450	RECOVERED REVENUE PER $1 OF FEES	3.2x	NET REVENUE RETENTION	118%
CAC PAYBACK	1.4 mo	MONTHLY LOGO CHURN	0.9%	GROSS MARGIN	82%

MARKET

A $1.9B wedge inside a $9B pharmacy-ops market.

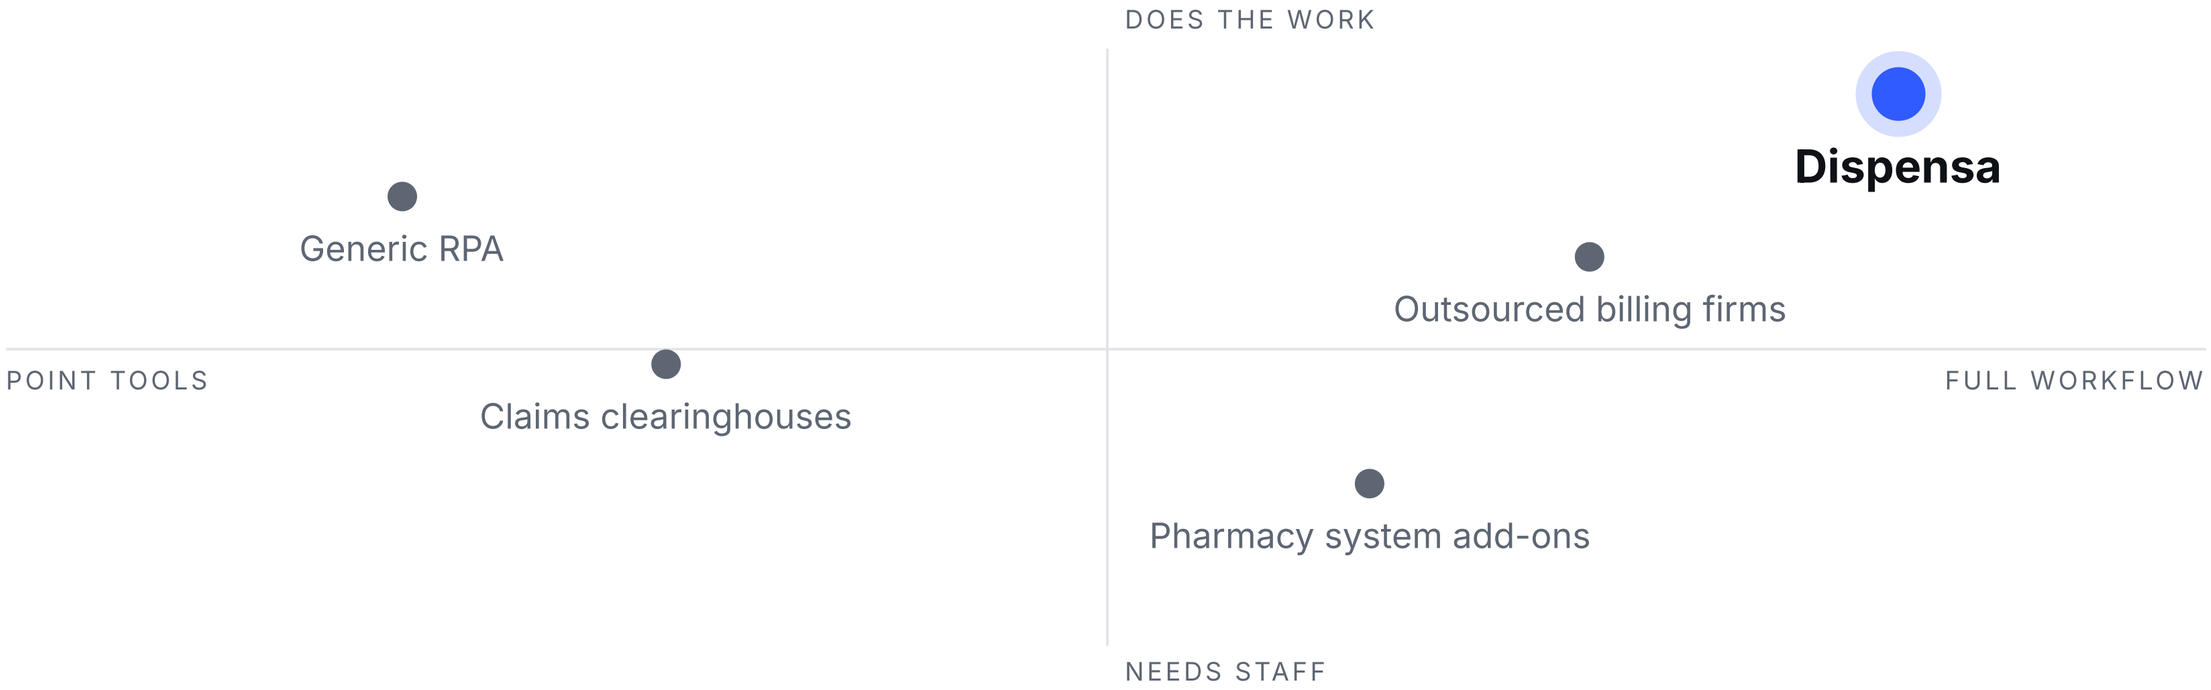

Bottoms-up: 19,400 independents + 6,800 small-chain stores × $1,450/mo × 12.

Expansion into long-term-care and specialty pharmacy adds a further $2.3B.

COMPETITION

Everyone else sells software. We sell finished work.

CUSTOMERS

Pharmacists tell other pharmacists.

"We got back $38,000 in clawbacks in the first quarter. I finally leave at six."

Owner, 2-store independent pharmacy, Ohio

"It is the first software that does the work instead of giving me more of it."

PIC, rural independent, Texas
